

Rider FAQ - Ride-Hailing Platform

Q: How does this app work?

A: Open the app, request a ride, and get matched with the nearest driver. Payment and ride tracking are handled in the app.

Q: How is this different from Uber or Lyft?

A: Our platform gives 100% of the fare directly to the driver (after government fees), supporting local drivers fairly.

Q: How are fares calculated?

A: Fares are based on distance, duration, local base fare, and any applicable taxes (e.g., GST/HST).

Q: How do I pay for a ride?

A: Pay securely using credit/debit card or digital wallet.

Q: Is there a booking or service fee?

A: No. You only pay the final fare shown upfront.

Q: Do I need to tip the driver?

A: Tipping is optional but appreciated. You can tip after the ride ends through the app.

Q: Can I cancel a ride?

A: Yes, but a cancellation fee may apply depending on when you cancel.

Q: How do I know if my driver is verified?

A: Drivers undergo background checks, vehicle safety checks, and identity verification.

Q: Is my location and personal data safe?

A: Yes. Your data is encrypted and never shared without consent, following PIPEDA guidelines.

Q: What if I forget something in the car?

A: Report a lost item via the app. We'll contact the driver on your behalf.

Q: How do I rate a driver or give feedback?

A: After each ride, leave a 1-5 star rating and optional comment.

Q: How do I get help or report a problem?

A: Use the app's Help & Support section or email support@yourplatform.ca.
